

Here They Come...

It is that time of year when we watch the daily weather forecast and hear of storms forming off the coast of Africa. Apprehension builds as the storm grows into a tropical depression, then a tropical storm. As it moves across the Atlantic we watch as forecasters show the cone representing the storm's projected path. It points to the East Coast as the storm grows to Category 1, Category 2, 3, 4 and 5...

September is National Preparedness Month. Take the time to prepare before the day when you are under a Hurricane Watch and a storm is upon us.

PLAN to Stay in Business
